אמין יותר, לאורך זמן.

## TCP 1000

The TCP 1000 is a compact Auto Mains (Utility) Failure Control Module that has been developed to provide an outstanding range of features. Monitoring engine speed, oil pressure, coolant temperature, frequency, voltage, current, power and fuel level, the modules will give comprehensive engine and alternator protection. This will be indicated on a large back-lit LCD icon display via an array of warning, electrical trip and shutdown alarms.

## Features

- Large back-lit icon LCD display
- Heated display option
- 3-phase generator sensing
- 3-phase generator and mains (utility) sensing
- 600 V ph-ph nominal system compatibility
- Generator & load power monitoring (kW, kV A, kV Ar, pf)
- Generator overload protection (kW)
- Configurable inputs & outputs
- Fuel and start outputs (configurable on CAN)
- Configurable DC, volt-free and staged loading outputs
- CAN & alternator speed sensing
- Engine speed protection, engine hours counter, engine pre-heat, engine run-time scheduler, engine idle control for start/stop
- Battery voltage monitoring
- Configurable event log (50)
- Configuration Suite PC Software

## Benefits

- Displays information to the operator in a clear and concise format
- Ensures the display continues to operate in extreme cold weather conditions
- Provides true generator sensing
- Provides true generator and mains (utility) sensing
- Provides global flexibility
- Provides clear accurate power measurement information.
- Provides engine overload protection
- Provides multiple installation options
- Provides full monitoring flexibility
- Ensures the engine is fully monitored for improved operating performance
- Ensures the battery maintains enough power at all times
- Provides access to historical alarms and operational status
- Provides complete user-friendly configuration and easy-to-use high-level system control & monitoring

## TCP 2000

The TCP 2000 is an Auto Start Control Module suitable for a wide variety of single, diesel or gas, generator set applications.

A sophisticated module monitoring an extensive number of engine parameters, the TCP 2000 will annunciate warnings, shutdown and engine status information on the back-lit LCD screen, illuminated LED, remote PC, and audible alarms. The module includes RS232, RS485 & Ethernet ports as well as dedicated terminals for system expansion.

TCP 2000 control panels are compatible with electronic (CAN) and non-electronic (magnetic pick-up/alternator sensing) engines and offer a comprehensive number of flexible inputs, outputs and extensive engine protections so the system can be easily adapted to meet industry requirements. They can be easily configured using the DSE Configuration Suite Software. Selected front panel editing is also available.

## Features

- 4-Line back-lit LCD text display
- Five key menu navigation
- Front panel editing with PIN protection
- Customisable status screens
- Power save mode
- 11 configurable inputs
- 8 configurable outputs
- Flexible sensor inputs
- Configurable timers and alarms
- 3 configurable maintenance alarms
- Multiple date and time scheduler
- Configurable event log (250)
- Tier 4 CAN engine support
- Integral PLC editor
- Easy access diagnostic page
- CAN and Magnetic Pick-up/Alt. sensing
- Fuel usage monitor and low fuel alarms
- Charge alternator failure alarm
- Manual speed control (on compatible CAN engines)
- Manual fuel pump control
- Engine exerciser
- “Protections disabled” feature
- kW protection
- Reverse power (kW) protection
- LED and LCD alarm indication

- Power monitoring (kW h, kV Ar, kV A h, kV Ar h)
- Load switching (load shedding and dummy load outputs)
- Unbalanced load protection
- Independent Earth Fault trip
- USB connectivity
- Backed up real time clock
- Fully configurable via DSE Configuration Suite PC software
- Configurable display languages
- Remote SCADA monitoring via DSE Configuration Suite PC software
- User selectable simultaneous RS232, RS485 & Ethernet communications
- Configurable MODBUS pages
- MODBUS RTU & TCP support
- Advanced SMS messaging (additional external modem required)
- Additional display screens to help with modem diagnostics
- Idle control for starting
- 20 parameter data logging

## Benefits

- 132 x 64 pixel ratio display for clarity
- Real-time clock provides accurate event logging
- Multiple date and time scheduler
- Set maintenance periods can be configured to maintain optimum engine performance
- Built in ethernet communications provides advanced remote monitoring
- Modules can be integrated into building management systems (BMS) using MODBUS
- Licence-free PC software
- IP65 rating (with supplied gasket) offers increased resistance to water ingress
- PLC editor allows user configurable functions to meet specific application requirements
- Data logging to assist with fault finding

## Specifications

### DC SUPPLY

#### CONTINUOUS VOLTAGE RATING

8 V to 35 V Continuous

### CRANKING DROPOUTS

Able to survive 0 V for 50 mS, providing supply was at least 10 V before dropout and supply recovers to 5 V. This is achieved without the need for internal batteries

### MAXIMUM OPERATING CURRENT

260 mA at 12 V, 130 mA at 24 V

### MAXIMUM STANDBY CURRENT

120 mA at 12 V, 65 mA at 24 V

### CHARGE FAIL/EXCITATION RANGE

0 V to 35 V

### OUTPUTS

#### OUTPUT A (FUEL)

15 A DC at supply voltage

#### OUTPUT B (START)

15 A DC at supply voltage

#### OUTPUTS C & D

8 A AC at 250 V AC (Volt free)

### AUXILIARY OUTPUTS E,F,G,H,I & J

2 A DC at supply voltage

### GENERATOR VOLTAGE RANGE

15 V to 333 V AC (L-N)

### FREQUENCY RANGE

3.5 Hz to 75 Hz

### FREQUENCY RANGE

3.5 Hz to 75 Hz

### BUS (DSE7410) VOLTAGE RANGE

15 V to 333 V AC (L-N)

### FREQUENCY RANGE

3.5 Hz to 75 Hz

### MAGNETIC PICK UP VOLTAGE RANGE

+/- 0.5 V to 70 V

### FREQUENCY RANGE

10,000 Hz (max)

### OVERALL DIMENSIONS

240 mm x 181 mm x 42 mm

9.4" x 6.8" x 1.6"

### PANEL CUTOUT

220 mm x 160 mm

8.7" x 6.3"

### MAXIMUM PANEL THICKNESS

8 mm

0.3"

### STORAGE TEMPERATURE RANGE

-40 °C to +85°C

-40 °F to +185 °F

### OPERATING TEMPERATURE RANGE

-30 °C to +70 °C

-22 °F to +158 °F

## TCP 3000

The TCP 3000 is an Auto Mains (Utility) Failure Control Module suitable for a wide variety of single, diesel or gas, generator set applications.

A sophisticated module monitoring an extensive number of engine parameters, the TCP 3000 will annunciate warnings, shutdown and engine status information on the back-lit LCD screen, illuminated LED, remote PC, and audible alarms. The module includes RS232, RS485 & Ethernet ports as well as dedicated terminals for system expansion.

The TCP 3000 Series modules are compatible with electronic (CAN) and non-electronic (magnetic pick-up/alternator sensing) engines and offer a comprehensive number of flexible inputs, outputs and extensive engine protections so the system can be easily adapted to meet industry requirements.

The modules can be easily configured using the DSE Configuration Suite Software. Selected front panel editing is also available.

## Features

- 4-Line back-lit LCD text display
- Five key menu navigation
- Front panel editing with PIN protection
- Customisable status screens
- Power save mode
- 11 configurable inputs
- 8 configurable outputs
- Flexible sensor inputs
- Configurable timers and alarms
- 3 configurable maintenance alarms
- Multiple date and time scheduler
- Configurable event log (250)
- Tier 4 CAN engine support
- Integral PLC editor
- Easy access diagnostic page
- CAN and Magnetic Pick-up/Alt. sensing
- Fuel usage monitor and low fuel alarms
- Charge alternator failure alarm
- Manual speed control (on compatible CAN engines)
- Manual fuel pump control
- Engine exerciser
- "Protections disabled" feature
- kW protection
- Reverse power (kW) protection
- LED and LCD alarm indication
- Power monitoring (kW h, kV Ar, kV A h, kV Ar h)

- Load switching (load shedding and dummy load outputs)
- Automatic load transfer
- Unbalanced load protection
- Independent Earth Fault trip
- USB connectivity
- Backed up real time clock
- Fully configurable via DSE Configuration Suite PC software
- Configurable display languages
- Remote SCADA monitoring via DSE Configuration Suite PC software
- User selectable simultaneous RS232, RS485 & Ethernet communications
- Configurable MODBUS pages
- MODBUS RTU & TCP support
- Advanced SMS messaging (additional external modem required)
- Additional display screens to help with modem diagnostics
- Idle control for starting
- 20 parameter data logging

## Benefits

- 132 x 64 pixel ratio display for clarity
- Real-time clock provides accurate event logging
- Multiple date and time scheduler
- Set maintenance periods can be configured to maintain optimum engine performance
- Built in ethernet communications provides advanced remote monitoring
- Modules can be integrated into building management systems (BMS) using MODBUS
- Licence-free PC software
- IP65 rating (with supplied gasket) offers increased resistance to water ingress
- PLC editor allows user configurable functions to meet specific application requirements
- Data logging to assist with fault finding

## Sound Attenuated Enclosures Level 1, Level 2 & Level 3

### 6.8 – 22 kVA (B Series) Range

The compact design of the 6.8 – 22 kVA SA Level 1, Level 2 and Level 3 enclosures range provides the flexibility of optimum sound attenuation depending on requirements. Designed on modular principles, the enclosures will have lift off doors or vertically hinged doors providing optimal service and maintenance access.

The enclosures are constructed with galvanised steel, designed to resist corrosion and handling damage. Developed through continuing research and development by our specialist engineers, the enclosures are weather protective and incorporate internally mounted exhaust silencers.

All of the sound attenuated enclosures reduce sound levels to comply with the stage II levels of the European Community Directive 2000/14/EC, effective from 3 January 2006.

## Features

### Durable and Robust Construction

- Galvanised steel protected by powder coat paint
- Single piece roof structure
- Baseframe extends beyond enclosure protecting against handling damage
- Black finish stainless steel locks and hinges
- Zinc plated / stainless steel fasteners

### Excellent Service and Maintenance Access

- Optional side hinged doors on both sides of the enclosure
- Optional lift off only doors on both sides of the enclosure
- Coolant drain piped to baseframe, exterior to the enclosure

### Security and Safety

- Control panel viewing via large viewing window
- Emergency stop push button mounted on enclosure exterior
- Cooling fan and battery charging alternator fully guarded
- Exhaust silencing system totally enclosed for operator safety

### Transportability

- Drag points on baseframe facilitating handling from both sides

Image shown may not reflect actual package.

## Features

- 3 mm steel construction
- Dual wall tanks have a secondary containment with capacity for 110% of liquids
- All bund joints are fully seam welded
- Polyester powder painted to ensure maximum scuff resistance
- Pressure tested between 4 to 5 psi
- Mechanical direct reading fuel level gauge
- 2 inch (50.8 mm) fuel fill neck
- Breather vent
- Fuel feed and return lines to engine
- Tank baffles

## 8 Hour Integral Fuel Tank
